

# First Annual Shanghai GPCR Forum

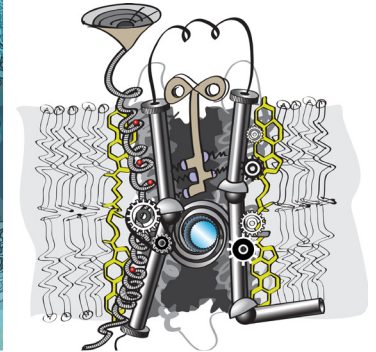

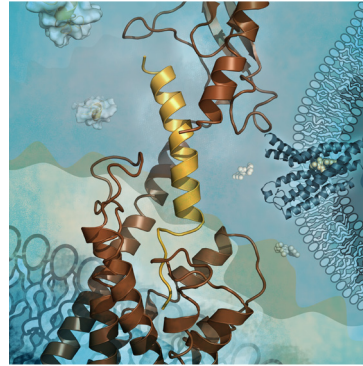

Sponsored by the iHuman Institute, ShanghaiTech University and the Local Shanghai Community

**December 1, 2013**

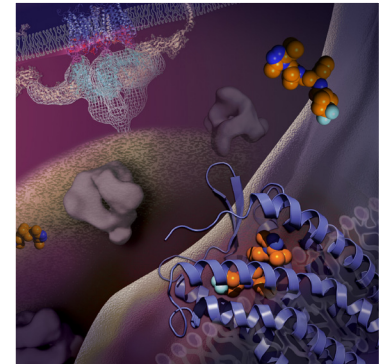

**9:00 – 18:00**

699 Bibo Road,  
Zhangjiang HiTech Park,  
Pudong, Shanghai, China

## List of Speakers and Events:

- Raymond Stevens** The Amazing Diversity of GPCRs  
**Kurt Wüthrich** NMR Studies of GPCR Dynamics and Beyond  
**Beili Wu** Structural Studies of HIV-1 co-receptors  
**Eric Xu** Structural Biology of Serotonin Receptors  
**Richard Ye** GPCRs and Inflammation  
**Hualiang Jiang** Dynamics of Glucagon Receptor  
**Fei Xu** Drug Discovery Opportunities in GPCRs  
**Ruiping Xiao**  $\beta_2$ -AR Translational Research in Cardiovascular System  
**Qiang Zhao** Crystal Structure of P2Y<sub>12</sub> Purino Receptor  
**Ming Wei Wang** Class B GPCRs and drug discovery  
**Zhi-Jie Liu** Project 826 – The Complete GPCR Library

**Round table Discussion 1** – How can the industrial and academic GPCR communities in China work better together?

**Round table Discussion 2** – Where should resources be best focused to make the largest impact on GPCR basic and applied research?

Dinner and social event

**RSVP to Shen Tong at**
